

## OSI stack

## FCoE stack

## FC stack

802.1q  
Layers

FC PH  
Physical Layers

FC 0 – Physical: include cabling, connectors, etc...

FC 1 – Data Link: line coding signal

FC 2 – Framing: protocols and port to port connections

FC 3 – Services: encryption, RAID redundancy algorithms, multiport connection

FC 4 – Protocol Map: SCSI, IP, FICON are encapsulated into a PDU for delivery to FC 2
